* **University:** *If you are a discrete project, school, center or unit within a larger university, select the dues category that applies, otherwise select the University rate.*

** **Federations:** *if you are part of a larger global organization that has autonomous branches in multiple countries but your “branch” only is applying for membership (e.g., the U.S. office of a larger global entity) select the budget category that applies to your “branch” only; if you are applying on behalf of the entire federation or global entity and multiple autonomous branches will participate in InsideNGO membership, the Federation rate applies.*

Level 1 - Lead Agency + up to 3 additional members in the Federation

Level 2 - Lead Agency + more than 3 members joining

*** **Sustaining** *is a category that signals an organization’s support for InsideNGO and the membership community with a special contribution above their regular dues category. It increases our ability to:*

- *Offer members benefits like no-cost webinars and other relevant, timely virtual events*
- *Maintain a responsive advocacy program*
- *Develop new products and services*

At this membership level your organization receives special recognition on InsideNGO’s website, and acknowledgement in the Annual Conference Program and on special Conference signage.
